

## Welcome to Germany!

A foreign Country, a foreign language, a different climate – that's not easy.  
We help you find your way around in your new home.

- We support you for doctor visits, visits to the authorities and the appointment to your children's school.
- We help you with language difficulties and legal issues.
- We advise women, girls, men and families about female circumcision and offer gynecological consultations.

We are speaking German, English, French, Arabic, and several African languages.  
You can come to us in the counseling center or we come to you.

Need Help? We are happy to help.
